Year 3

GEOGRAPHY

We will explore the different climate zones on Earth. We will compare the climates of different countries and identify the reasons for this linking to the equator.

RE

Throughout our R.E work, we will be learning about the key concepts of Hinduism, and how the belief in Dharma and Samsara impacts on the lives of those who follow this faith.

Jigsaw

New Beginnings

We'll share our thoughts and feelings of being me and living in our world.

MATH

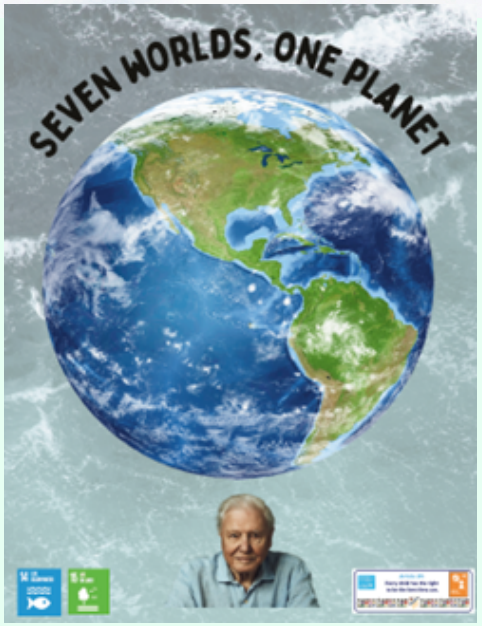
We will be developing our Maths Mastery in place value, addition and subtraction as well as multiplication.

MUSIC

Producing and performing rhythmic patterns as part of a whole class composition and performance piece

English

We will explore the importance of bees and their impact on our environment. We will be using high quality texts and film clips to write persuasive letters to Sir David Attenborough.



SCIENCE

Let There Be Light

We'll be developing our understanding of light and the dark and designing and carrying out experiments to prove our ideas are correct. We'll also be learning how to stay safe in the dark!

Spanish

This term in Spanish the children will find Spain on a map. They will use key greetings and ask and answer the questions 'How are you?' and 'what is your name?' We will start to work on our memory skills so that language and the spelling of new words are remembered after the lesson.

¡HOLA!

COMPUTING!

Computer systems and networks

We will be exploring how computers are connected and finding out about what our school network looks like

ART

We will learn about artists, architects and designers in Ancient Egyptian time. We will observe statues and build on our knowledge of the Egyptian Gods. We will create our own papyrus paper and mould The Sphinx using clay.
