A Royally Good Time and CHICK THIS OUT!

2026

Communication and Language

Literacy

We have lots of wonderful texts this term to help us with our vocabulary and oracy skills. We will practice speaking in full sentences, asking questions and using new vocabulary in context.

We will continue to work on our transcription skills to accurately hear and write the sounds in words, phrases and sentences, forming letters correctly.

Busy Boots + E Safety

This term we will explore the changing seasons outside, as Wonderful Winter becomes Super Spring! We will be building, counting, sorting, measuring and investigating in our environmental area.

Our E-safety units of 'Online Relationships' and 'Online Reputation' will keep us safe as we learn.

PSED

We explore similarities and differences between ourselves and others to find and celebrate what makes us unique!

Maths

We will introduce numbers to 10 and explore number bonds within these numbers as well as addition and subtraction. We will also explore the vocabulary of length, time, height and 3D shapes.

UTW

We will go on a fantastic journey of exploration this term, beginning with looking at our current monarch and our capital city. We will also discover Lunar New Year and compare this to celebrations from our own homes. In Term 4, we will become farm experts as we investigate farm animals and machinery, visit a real farm and observe chicks hatching!

PD

Alongside continuing to develop our fine motor skills and pencil grip, we will follow a recipe to prepare food for our tea party. In PE we will cover gymastics and ball skills.

RE

Our Christian Values are Courage and Compassion and our Character Education Trait is Integrity. We will learn about ours and others special books and the Christian story of Easter.

EAD

Music

In Music, we will explore beat, rhythm and pitch using instruments and classical music. In Art we will be inspired by Stephen Wiltshire to make skyline artwork and use collage and observational drawing skills to represent daffodils and sunflowers.
