

PSHE -

Through our new Jigsaw module, Dreams and Goals, we will discuss our aspirations, how to achieve our goals and understand the emotions that go with this through different tools of resilience, self belief and motivation. We will also be exploring our new Character trait of integrity, standing up for others, and creating opportunities for equality.

Mathematics -

We'll continue our multiplication and division work, including multiplying and dividing 2 digit numbers!

We'll begin our measurement work with a hands on approach. We will learn to use a ruler accurately. Through practical lessons, we will become experts on finding the perimeter of shapes before moving onto learning about simple fractions.

Computing and E-Safety -

We will be learning how to use a new stop frame animation application to create some animations of our fairytale stories and some creative publishing with Canva.

Safer Internet Day is on 6th February 2024 and we will be exploring respect and relationships online. This will link to the British Value of mutual respect.

Geography -

This term we are going to become super Geographers by investigating weather patterns, observing clouds over time and measuring wind speed. We will also carry out field work studies of our school grounds with a bird's eye view map and 4 figure grid references.

There's two sides to every story...
Year 3

Art -

During our workshops with the author Bethan Woolvin, we will recreate amazing illustrations from her collection of fractured fairy tale books- Little Red, Rapunzel and Hansel and Gretel.

RE -

Our Christian Value for this term is **Courage** and we will revisit **Perseverance**. In RE, we are exploring the Christian worldview of the Trinity through our learning about Jesus' baptism and the Grace prayer.

English -

We will explore a number of our favourite fairy tales, examining common themes and conventions. We will then use this to help us plan and write our own setting and character descriptions; and our very own fairy tales!

DT -

We will design and make our very own toys with moving parts (pneumatic mechanisms!), inspired by the book, 'Inside the Villains'.

PE -

We will be working on our fitness and gymnastic skills.
